### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 11-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. The following claims are vague, indefinite, awkwardly, and/or confusingly worded;

- i. "it" appears in claims 11-20 and 28-30. The limitation needs to be positively recited with proper antecedent bases. The claim is indefinite.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8, 11-13, 15-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Arias (5657965).

Arias discloses an apparatus having a chambered base member (100), tongue (58), a chambered lever (200) with teeth (112&115) with a means of wedge or grooves (which is the space between the teeth), and a cross bar (300) with a spring.

***Claim Rejections - 35 USC § 103***

Art Unit: 3723

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. . Patentability shall not be negated by the manner in which the invention was made.

5. Claims 10 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arias (5657965) in view of Koo (5195724).

b. Arias discloses the claimed invention except for notches.

c. Koo discloses notches which used on the lever or base would yield predictable results that one of ordinary skill in art would obtain by combining these references.

d. In view of design choice of using a known element such as washers it would have yield the predictable result that one of ordinary skill in the art would have obtained using these known elements as matter of design choice or obvious experimentation.

### ***Allowable Subject Matter***

6. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

Art Unit: 3723

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The 892 form discloses prior art being made of record.
